Docklands Systems

UK Manufacturer of Partitioning Systems

About Us

Originally formed in London's Docklands, the company has recently relocated enabling us to now offer a wider range of products and services including partitioning, storage wall, steel staircases, mezzanine floors and steel caging, all manufactured by us and tailored to suit your needs.

We are an owner managed UK manufacturer able to offer bespoke products to compliment our partitioning ranges.

Where possible we manufacture from sustainable, traceable sources of supply in line with our green policy commitment.

Our customers return to us time and time again satisfied in the knowledge that they are working with an experienced, caring company that has their interests at heart. They trust our professional support and service to ensure orders run smoothly and have faith in our extensive product portfolio, which has been rigorously tested over many years of successful installations.

*Docklands Systems,
build your success on
our service*

Other Products

We also specialise in bespoke metalwork fabrication. Here are just some of the services we can offer to compliment our partitions: -
